

BRISBANE WOMAN Workshop and Networking Evening - Tuesday 7th July.

HOW TO stand up and speak your message . . . easily

Is your business held back by your fear of public speaking? Are you avoiding valuable networking opportunities because you may have to introduce yourself and what you do? Are people who really need your service or product missing out because you are not speaking out and delivering a clear message?

Imagine feeling comfortable standing up, sharing your message (who you are and how you can help them) with a group. No more jelly legs, sweaty palms or squirmy tummy. What difference does that make to your business...to your self-esteem...to your life?

Last workshop you aligned your personal and business visions, now it's time to learn to share that vision so others can help make it grow.

In this practical workshop, you'll:

- Learn about NLP (Neuro Linguistic Programming) and how you can use to it your advantage.
- Change your limiting belief about your ability to speak in public.
- Install a Resource Anchor which will enable you to instantly feel confident and resourceful time and time again.
- Learn a simple, concise way to construct your message, workshop then practice it.
